### Petition Under 37 CFR 1.313(c)

Applicants hereby petition the Commissioner pursuant to 37 CFR 1.313(c) to withdraw this application from issue so that the Request for Continued Examination (RCE) filed by applicants on June 11, 2007 can be properly considered. (Since the Office is already in possession of the RCE, applicants have not included a copy herewith.)

A Credit Card Payment Form in the amount of \$130.00 is enclosed herewith in payment of the petition fee required under 37 CFR 1.17(h).

This Petition is in response to the Notice of Improper Request for Continued Examination (RCE) dated July 27, 2007, a copy of which is enclosed herewith.

The reasons supporting applicants' request are as follows.

This application was allowed on March 28, 2006. In the Notice of Allowability the Examiner canceled claims 9-13 pursuant to an authorization given by the undersigned in a telephone interview with the Examiner on March 20, 2006. The Examiner indicated that the amendment was necessary because claims 9-13 were directed to a separate invention and, further, because claim 9 was indefinite due to its dependence on claim 1.

In an Amendment After Allowance dated April 25, 2006, applicants proposed to reintroduce claims 9-13 and amend claim 9 to specifically incorporate the structural limitations of claim 1. However, in a Response to Rule 312 Communication dated May 31, 2007, the Examiner disapproved this amendment because prosecution on the application had already been closed.

In a telephone interview with the Examiner dated June 7, 2007, the Examiner informed the undersigned that applicants could file a Request for Continued Examination in a further attempt to have claims 9-13 reintroduced into the application on the basis of the proposed amendment to claim 9.

Accordingly, on June 11 applicants filed the RCE and an accompanying amendment for the purpose of reintroducing claims 9-13 into the application. Although applicants are aware that the option exists to file a divisional application for claims 9-13, such an action would delay the issuance of these claims and subject applicants to additional costs. In addition, the processing and examination of a divisional application would require the expenditure of considerable time and effort by the Patent Office.

For the foregoing reasons, applicants respectfully request that the Commissioner grant this Petition.

Respectfully submitted,

Date: July 31, 2007
